ANGELA FABACHER, AIA

AMANDA COUTURIE

■ Flooding following Hurricane Katrina provided LSU School of Dentistry with an opportunity to renovate the first floor of the Administration Building and create a hub space for the dental school students. This new 'Snack Bar' is equipped with a food service area on one side and a coffee shop on the other, and it allows the students to enjoy a variety of seating environments including casual dining areas, lounge space, small meeting areas, and a cyber bar.
