■ The project consists of complete renovation and conversion of at Post Office building located at 13085 Chef Mentour Hwy., New Orleans, LA 70129, into a new community health clinic. The project was funded by the Louisiana Disaster Recovery Community Development Block Grant (CDBG) and Primary Care Capacity Project (PCCP). The project involved the complete replacement of exterior skin and roof, and interior build out, and all new mechanical / electrical systems. The building features both an adult's and children's clinic, and a separate administrative area for the Health Center.
